Sticks

There are 3 main types of hockey sticks

- Wooden sticks - are the original type of sticks and tend to be the cheapest
- 2 piece shafts + blades - are great for guys who are heavy on stick blades
- One piece composites- the relatively new and generally accept offer the best performance

There are three main sizes of sticks

	<i>age</i>	<i>flexes</i>
Junior	Up to 12	Up to 65
Intermediate	12- 16	70-80
Senior	16 +	85 - 110

Right or left HAND?- all sticks (except RBK 1K KIDS) Come in either a RH or a LH. This has nothing to do with which hand you write with, its down to preference.

A **Right Handed** player holds the top of the stick in his/her left and their right hand in the middle of the stick.

A **Left handed** player holds the top of the stick in his/her right hand and left hand in the middle of the stick.

If you have a stick: When you looking down the shaft:

A **left** handed blade **curves** to the **right**.

A **right** handed blade **curves** to the **left**
